

# LMC STYLE 400 F

new, innovative and unique –  
the latest design from the creative Sassenberg-based  
caravan manufacturer

A unique new addition to the Style model range, with all of the advantages and the spacious feel of a Style but in a compact layout suitable for single travellers and couples. The model impresses with optimum weight distribution in the interior, a short overall length for optimum manoeuvrability and an automatic trailer control system. The strict light construction approach that is typical for LMC has resulted in an overall model weight of less than 1,000 kg, which leaves sufficient payload for an awning and other equipment. A large service hatch ensures easy loading and unloading.

- 1) Includes 2x 230V sockets, 1x 12V socket, SAT connection and antenna cable from wardrobe to TV spot.
- 2) Integrated in front of the axle to provide space for an underslung spare wheel carrier.
- 3) If a pop-up roof is chosen as an extra, there is no skylight in the washroom. In that case, the washroom features a standard window.
- 4) Only in combination with pop-up roof, which comes with a button-on insulation mat. Not available in combination with a wet central heating system.
- 5) Not available in combination with the extra pop-up roof.
- 6) Not available in combination with flat screen TV mount.
- 7) Flat screen TV mount pre-installed (TV spot 1 only). Not available in combination with top hinged window by sideboard.

Decorations shown in illustrations not included. Vehicle features, design and colours may differ from the original shown. Particularly the prices, but also the technical specifications, fixtures and furnishings as well as specific design aspects may be subject to changes. At the time of going to press, all information provided with regard to includes, design aspects and services was up to date and correct. For printing or lighting reasons, but also for reasons due to the natural properties of the materials used, all textures and colours may differ and are therefore also subject to change. All dimensions and weights stated may differ by +/- 5% due to various material properties. Weights stated comply with the requirements of EU-guideline 661/2009 and VO (EU) 1230/2012. All LMC caravans come with a twelve-year water ingress warranty, provided the vehicle is serviced annually by an official LMC partner (service charges apply). Please contact our experts for additional technical specifications and details.

**STYLE**  
**400 F**  
easy  
to fold

For more room during the day and enough space for two people at night – the caravan features an unique folding bed, integrated in a space saving way. It offers a comfortable width of 1.50m and an adequate length of 1.90m. The folding mechanism is easy to use and safely locks into place. Convenient: the bench cushions can stay where they are when unfolding the bed.

Converts in

**THREE**  
**STEPS**

**FEELS** AS SPACIOUS  
as a  
large one

With an overall length of 5.83m and a width of 2.32m, it offers plenty of space for single travellers and couples. Thanks to an interior head room of 1.98m and a foldable bed, LMC has successfully transferred the characteristic spacious feel of the large Style models to a more compact version. The large sideboard with generously-sized drawers is the perfect place for a TV. The cleverly divided interior and the optimum position of the windows ensure that the ambience in the Style 400 F is light and airy.

The generous front kitchen features a top hinged window at no extra charge and is equipped with plenty of storage space and shelves. The 141 litre fridge with freezer compartment can hold enough food for a longer trip.

The washroom also scores with numerous shelves and cupboards. The standard skylight ensures that it gets daylight and fresh air. The large mirrors make the space look even lighter and make the washroom look larger.

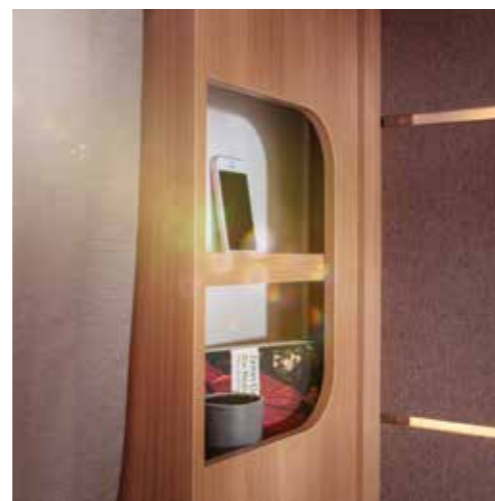

## SAFELY STOWED AWAY

shelves,  
compartments,  
cupboards

Next to the fridge, there's a large cupboard that serves as a wardrobe with a clothes rail and a shelf.

Organisers and shelves make optimum use of free wall spaces and niches. Covered power supply rails make it possible to flexibly move the lights and USB sockets for charging mobile devices. Also hidden beneath the folding table are four additional USB charging points.

## TECHNICAL DATA AND FLOOR PLAN

400 F

Technical data vehicle	
Total length	5.833 mm
Exterior length	4.626 mm
Interior length	3.990 mm
